_____

*End caps are approximately 1/8" width to the headrail for all mounts. We deduct 1/4" off the ordered width of inside mount shades. No deduction on outside mount, headrail & shade are same width. We deduct 3/8" off the ordered width of side mount shades.

*N=Normal Brackets, S=Side Brackets(less than 48"), E=Extension Brackets (includes normal brackets), P=Spacer Blocks (includes normal brackets)

*2 on 1 shades - Left & right width must equal total width. Left Control on left shade; Right Control on right shade.

*EasyLift is available with your choice of bottom up or top down.

*Top Down/Bottom Up Option - Top Down Control on left, Bottom Up Control on right (See price list for size limitations)

*Perfect Arch (Radius of the circle is constant at all points) is available in all 3 products. Order by total width of the bottom of the arch.

*Cordless Construction will be available as soon as possible.
